Interview Bio

Matti Meikäläinen is 22 years old student who takes care of he's teeth regularly but doesn't really go to the dentist.

Interview Summary

He was very keen to answer the questions and we got a lot out of the interview. He was very open and didn't shy away from any of my questions. It was clear that he disliked the dentist but wasn't afraid of it. Even then, a lot of specifying questions were needed to keep the interview going as he just strictly answered the question.
